The Rockwall is a spacious home that is perfect for growing and active families. At the center is a large family room that is open to the adjacent kitchen and breakfast nook. The kitchen features a long central island with an eating bar and a walk-in pantry, and the entire space is filled with light from a wall of windows. The secluded luxurious master suite notably features a sloped ceiling with wooden beams in the bedroom, as well as a vast walk-in closet and soaking tub. Two bedrooms and a versatile study are on the opposite side of the home. An attached 2-car garage and storage garage lead into the utility room and drop zone, providing easy alternate entry points.
